CATAWBA [illegible]

CATAWBA COUNTY, N. C.

THIS CELEBRATED WATERING PLACE, formerly called the North Carolina White Sulphur Springs, will be open for visitors on Tuesday, the first day of June next.

BEING SITUATED in the Northwestern part of the State, in a country remarkable for its beauty and healthfulness—these, together with the virtue of the waters, make it one of the most desirable watering places to be found.

THE MINERAL WATERS OF THESE SPRINGS

Are the White and Blue Sulphur and Chalybeate or Iron, and they possess all the finest qualities of these waters, and are sovereign remedies for all diseases of the liver, bowels, stomach and kidneys, eruptions of the skin, scrofula, weakness, debility, dyspepsia, rheumatism, &c., &c.

THE PROPRIETOR having spent a large amount in additional buildings and improvements generally, these Springs are now in a fine condition, rooms large and pleasant, and good cottages containing from two to six rooms each, well arranged for either large or small families.

And other Amusements

FINE BATH HOUSES,

For Pool, Plunge or Shower Bath, Sulphur Bath, Hot or Cold.

A GOOD BAND OF MUSIC

Will be at the Springs the entire season, and a good Physician permanently located for the benefit of invalids, who will have every attention.

Having secured the services of Mr. J. N. Castle, of Virginia, who has had much experience and stands high as a Hotel keeper, visitors may rest assured that my table will be supplied with the best the market can afford, and everything done that will add to their pleasure and comfort.

The cars on the Western North Carolina Rail Road will leave Salisbury for Hickory Station, the Springs' depot, every morning, (Sundays excepted,) in connection with the North Carolina Rail Road, avoiding stoppage or delay at Salisbury, and arrive at Hickory Station in time for breakfast, where good hacks will be in readiness to take passengers over a beautiful, well-shaded road to the Springs, a distance of six miles.

RALEIGH STANDARD.

The Raleigh *Standard* of Tuesday, under the caption of "*The Fourth of July in the South*," made it an occasion of criticising an article which recently appeared in the TIMES on the same subject, employing language unwarrantable in the press even of this age. We do not intend to reply to the article, but to the writer, and denounce him as a scoundrel and calumniator,—because his article is a tissue of falsehood from beginning to end; and as a base coward,—because he availed himself of the distance between us to employ language which he would not dared to use had we been face to face; and for the further reason that he is not known, there being so many scribblers for the *Standard*...

An Absurd Alternative.

The Fort Atkinson (Wisconsin) *Herald* has the following:

A dreadful report was current in this village yesterday that a mad dog had bitten two children—a boy of seven years and a girl of four—in the town of Milford, in this county, and that the parents, whose names we did not learn, were informed by the attending physicians that the only possible way for the children to escape the agonies of rabies would be to take their lives. Incredible as it may seem, they administered an opiate to the boy and bled him to death, and the girl was smothered in a feather bed. There seems to be no doubt of this, as it is well attested.

"La me!" said Mrs. Partington, "here I've been suffering the bigamies of death for three mortal weeks. First I was seized with a bleeding phrenuligy in the left atmosphere of the brain, which was succeeded by a stoppage of the left ventilator of the heart. This gave me an information in the borax, and now I am sick with blessing like that of health, particularly when you are sick."

In reference to General Sickles' case it has finally been decided by the President and the law authorities that a retired officer may hold a civil Office. Sickles will, therefore, go to Madrid as Minister and remain a major general of the army on the retired list, but he will be entitled to draw only the Minister's pay.—He will leave for Madrid about the middle of next month.

Ex-Senator A. G. Brown, of Mississippi, denies emphatically Mr. Pollard's statement that prior to the assault upon Fort Sumter a number of senators and representatives from southern States held secret caucuses in Washington and agreed upon the plan of separation.

SPECIAL NOTICES.

The Season of Exhaustion.

No matter how vigorous by nature the system and the constitution may be, they must necessarily suffer more or less from the depleting effects of the temperature of midsummer, unless strengthened and sustaind by wholesome tonic treatment. The extra pressure upon the vital forces must be met and counterbalanced by an extra resistant power; the unusual and rapid consumption of the animal fluids by profuse perspiration, must be compensated by the perfect digestion and assimilation of the food taken into the stomach, from which both the fluids and the solids of the body are derived. Otherwise the physical strength declines, and the mind, sympathizing with the machinery through weich it acts, becomes depressed and enervated. A STIMULANT is therefore absolutely required at this season; not a violent one, calculated to produce febrile excitement, but *something which will recruit and reinforce the whole organization in proportion to the extraordinary drain to which the torrid heat subjects it.*

This desideratum is supplied in a palatable and most efficient form in HOSTETTER'S STOMACH BITTERS, which the people of this country, after more than twenty-five years' experience, have accepted and endorsed as the best tonic, alterative and antibilious preparation which medical chemistry has yet succeeded in obtaining from the strength-sustaining, healing and purifying products of the vegetable kingdom. Every ingredient of this famous compound has its own specific virtue, and the result of their combination is the most genial invigorant, aperient, and regulating medicine ever administered, either as a preventive or cure of the disorders most common in our variable climate. Among these may be enumerated dyspepsia, biliousness, constipation, fever and ague, nervous debility, and all the ailments proceeding from imperfect digestion. A course of HOSTETTER'S BITTERS is the best possible safeguard against the dangers which menace persons of both sexes, and all ages, during the heated term.

CHARLOTTE FEMALE INSTITUTE.—The annual concert and musical entertainment came off on Tuesday evening. The room was jammed and the heat overpowering, but every body was in a good humor and well pleased with what they saw and heard.

The programme embraced pieces from the most eminent composers, was selected with taste and an eye to tax the skill of the performers. The young ladies showed thorough training and satisfied all who were judges, that Prof. Baumann is a master of the science and possesses a wonderful capacity for imparting what he knows; in other words, he is a most admirable teacher. Yesterday the Diplomas, &c., were awarded, and a chaste and elegant address delivered by Rev. Dr. Pritchard, of Raleigh. We are glad to know that this most excellent school is fully appreciated by the community and is now in a most flourishing condition. We know of no school where the system is more thorough, training, not only the mind, but realizing the true object of education, by a proper attention to the moral, intellectual and physical developement of the pupil.

Consolidation—North Carolina or Virginia.

I have seen and conversed with a number of Stock holders, who returned some days since from a delightful excursion to our magnificent harbor at Beaufort, which they visited despite the trouble and annoyance of applying to President Smith for a pass over his road. All came back delighted and surprised to see that we had such a harbor on our own coast; and nearly all expressed themselves strongly for consolidation.

Last week there was an excursion to Norfolk; and President Smith issued through tickets, and sent them to a large number, if not all, of the N. C. R. R. Stockholders to visit this Virginia port. Now, why this distinction between Virginia and North Carolina? Beaufort harbor is a better port than any in Virginia. It is only 30 minutes sail from the Railroad wharf to the ocean, while Norfolk is 30 miles from the sea. Our Railroads are capable of carrying all our freight as cheaply, as quickly, and as safely as any other route. This was proven and fully tested in 1866, when there was a regular line of steamers between New Jersey and Morehead City. I know of one shipment of 800 bales of cotton via Morehead City in preference to Norfolk, or Charleston, or Wilmington, which cities were binding for it. It was sent through to New York with the same dispatch, and cheaper, than by either of the other routes. I have heard of Mr. Allen, a large merchant of Newbern, saying that he shipped $100,000 worth of goods yearly by the Newbern steamers. He feels so safe that he never insures, and has never lost one cent. Does this look like there was such danger on our coast, as some pretend? The Insurance Companies at New York, offer to insure goods in first class steamers to Morehead City, at the same rate they do to Norfolk.

As North Carolinians we should protest against building up others States in preference to our own. Can any true North Carolinian prefer another State to his own? Then, is not this the effect of our present railroad management? At one depot of the N. C. R. R. I am informed that the freights received and sent off amount to about $150,000 a year; and I suppose the amount to be as large as many others. Under the present system, about one-fourth of this $350,000 goes into Virginia pockets. Now, why not pay this to North Carolina, and to the railroads in which she is interested? About $88,000 of this 350,000 could be saved, and ought to be kept within the State, and would, if these freights were sent over our own roads. Of this $88,000 the State would receive, according to her proportion of stock, about $52,000, which would be paid into the State Treasury to lighten our taxes, and the balance be paid to the Stockholders. Now, if this can be done from freights of one depot, what would go into the State Treasury from the whole raid? I verily believe that in two years the amount received by the State form this great work, when consolidated, would pay the whole expense of the State government; and the Stockholders, of course, would be benefitted in proportion. This is no fancy sketch—this very thing is now done in Georgia.

Were these enormous taxes—amounting to $28,000,000, at the last session of the Legislature, and many millions before—imposed upon the people of our State to build roads for, and enrich other States? If so, we had better let railroad building alone, where we receive nothing in return but sneers! It is time North Carolinians were awake to their interests. We cannot afford to build up other States, and thereby impoverish ourselves. How long can and will North Carolina stand this system? It has been carried on too long already; and I hope the State Stockholders will look to their interests and consolidate the two roads in which the State is most deeply interested. If an individual stood in the position of the State, he would consolidate immediately—would have done so long ago. Then let our State, and not Virginia alone, have the benefit of her public works. There are hundreds of steamers at the wharfs in New York ready and anxious to come to our ports for our freights, if we will only send it there. The road will be at no expense for steamers—they will come at any moment, and in any number required, to carry off all our freight, if we will only give them an opportunity. Freights are now brought by the way of Wilmington, over the N. C. R. R. cheaper than any other route, though communication with New York is not so frequent. They can be brought by Morehead City cheaper than by Wilmington, if the roads are consolidated, and North Carolina will get three-fifths of all the profits of such freights. Those fine steamers which ply to Norfolk can be turned to our waters if the Stockholders say so; they live on our commerce; our waters are as fine as any in the world; our harbors are as safe; then let us have these steamers in our own ports, and we can compete with the world, and trade with the world.

Why is it every Road leading to South Carolina and Virginia is opposed to Consolidation? Why is it that every Road, which touches the North Carolina Railroad, is opposed to it? Well they may be opposed to it, for they know they cannot compete with it. Well may the Raleigh and Gaston, and the Seaboard and Roanoke roads give free passes to the Stockholders of the North Carolina Railroad; well may the Board of Trade of Norfolk feast them and flatter them; for they know full well the value of our freights, and cannot afford to lose them, and will make any sacrifice to retain them.—Now if they can afford to give so much to keep them, then we certainly can save what they give, and make their profit ourselves! It is absurd and ridiculous to say, that one Road cannot carry freight cheaper than three or four different managers, and subserving different interests. Why is it that every paper we pick up tells of roads consolidating, sometimes three or four into one, and in every instance the stock of the consolidated Road advances largely beyond the price of either of the roads before consolidation. Within the last month the Pennsylvania Central Roads has been consolidated to Chicago. Only a few days since the Legislature of New York consolidated the Hudson river, and New York Central, roads. They know the value of a long line under one management!

Consolidation is the order of the day. Can it be possible what is right the world over is wrong in North Carolina? If successful elsewhere, it will be here also.

The carrying of the freight to New York via Morehead City was successfully tried in 1866; and would have been continued to this day, but for the continual change of officers, which has taken place yearly in both roads. The North Carolina Railroad has had four Presidents, and the Atlantic & North Carolina Railroad three, in the last four years; and in this annual confusion and change North Carolina suffers, while other States are benefitted! There is a partial remedy for this—consolidation! and let there be but one set of officers to change annually, instead of two sets.

The opponents of consolidation speak of the Atlantic & North Carolina as being a dead weight to the North Carolina Railroad. This is all absurd! Why is it the Atlantic & North Carolina Railroad is not paying dividends to its Stockholders? It is because all the other roads in the State are striving to carry freight to Norfolk instead of sending over the Atlantic & North Carolina Railroad, where it ought to go. Give it the freight it ought to have, and which now goes from the North Carolina Railroad to the R. & G. R. R. and it will pay vastly better than the North Carolina Railroad; for it is a great deal cheaper road to keep up and run. A locomotive, which will pull only ten loaded cars over the heavy grades of the North Carolina Railroad, will pull twenty over the Atlantic & North Carolina Railroad, owing to the grades being so light and the track so straight.

Some objection has been made to the debt of the A. & N. C. R. R. The debt is not more than half what the debt of the N. C. R. R. is, in proportion. The A. & N. C. R. R. has a capital of $2,000,000 and only owes about $230,000, while the N. C. R. R. has a capital of $4,000,000 and owes $670,000. The A. & N. C. R. R. owes only 10 per cent. of its capital stock, while the N. C. R. R. owes 20 per cent of its capital stock. The objection on the score of the debts of the two companies ought to come from the A. & N. C. R. R. for it will be a hardship upon it to assume part of the N. C. R. R. debt. But the debts of the two companies can be easily arranged by the terms of consolidation, just as any other trade is made.

Another objection urged by some to consolidation, is that the act authoizing it, forbids discrimination against shippers of freight from one point to another. This is intended expressly to prevent discrimination against our own citizens, so as to allow them the benefit of the lowest freights, and to encourage our own citizens, as through freights now go at a very low rate, and local freights at local rates. it amounts to a discrimination in favor of strangers, and against our own citizens. We should not discriminate against our own people. If we desire to discriminate against through freights it can be done; for the act says expressly: "Provided that the rates shall apply to the line of the said (consolidation) road only, and not to through rates in connection with other lines of transportation.—Now this is one of the best features in the bill. It does not necessarily restrict the road to low rates; but says, if the rates are low, our own citizens are to have the benefit of them.

Another object urged by the opposers of consolidation is that the stock of the N. C. R. R. is worth more than that of the A. & N. C. R. R. The act of consolidation expresely provides that committees shall be appointed to arrange the differences. No two roads ever were consolidated but the stock of one was selling higher than that of the other. The A. & N. C. R. R. Stockholders are perfectly willing, I understand, to sacrifice part of their stock in order to get part of the business of the State. Which they think they have a right to; but which, owing to the various combinations of the other roads against them, they don't get. The capital of the N. C. R. R. is $4,000,000; that of the A. & N. C. R. is $2,000,000,—making $6,000,000. Now if the Atlantic & North Carolina Railroad Stockholders are willing, and I understand many of them are, to put their road into the consolidated road, provided the N. C. R. R. will give them $1,000,000 of stock, making the consolidated capital $5,000,000; ought not the N. C. R. R. to be willing to give $1,000,000 of stock worth only $20 a share, making only $200,000 for a road 96 miles long, and which cost $2,200,0000 and could not be built now for $3,000,000?

Why, there are any number of individuals in the State, who would gladly take the offer, if made to them. The iron alone will sell for twice the amount. Then why should not the N. C. R. R. take this great bargain, and pay for it in stock worth only $20 per share worth 20 cents in the dollar? The A. & N. C. R. R. would not think of making such an offer to any other party or corporation.

They say, by consolidation the business will be so largely increased, that both companies will make more money than now, in their seperate organizations, and in a year or so the stock they have left will be worth more than the whole is now.

Then let us consolidate and advance the interest of our own roads, and our own State. Do we see people of other States advocating other ports in preference to their own.? No. North Carolina alone witnesses so sad a sight. It is time for us to have some State pride. These roads were chartered and built to encourage State pride in her citizens, and we must not allow them to be diverted from the purpose for which they were intended. Every citizen of North Carolina should be interested in her prosperity, for we will get no help from other States. I have no interest of any kind in Eastern North Carolina. I have not, and never had, a share of stock in the A. & N. C. R. R. I have a few in the N. C. R. R. I have considered this subject, weighed well the arguments on both sides, and am thoroughly satisfied that consolidation is the best thing that can happen for the N. C. R. R. and the State of North Carolina. I have no prejudice against Virginia; but I have a perjudice in favor of North Carolina, and when the issue is made you will always find me on the side of my native State. Let our motto ever be "North Carolina against the world."

APPLETON'S JOURNAL

A WEEKLY PAPER,

Devoted to Literature, Science and Art.

Omitting ordinary news, and avoiding partisan advocacy, both political and sectarian, the JOURNAL will be devoted to general literature, to science, art, and education, and to the diffusion of valuable information upon subjects of public importance. It is intended to make use of all resources, original and selected, domestic and foreign, which can give interest and variety to its pages; and neither exertion nor expense will be spared to secure the aid of the best talent of the time. We abstain from the large professions and the parade of conspicuous names so common on these occasions, and, trusting to the intelligence of the people, shall be content to let the Journal speak for itself.

The department of literature will embrace:—

Fiction, in the form of both Serial Novels and short Stories;
Essays upon Literary and social Topics;
Sketches of Travel and Adventure;
Discussions upon Art, Books, and Kindred Themes;
Papers upon all the various subjects that pertain to the pursuits and Recreations of the People, whether of Town or Country; and
Poems by our Foremost Poets.

Illustrations will form an important feature in the plan of the JOURNAL. Nearly every number will be accompanied by either an

Illustrated Supplement on some Popular Theme, a Steel Engraving in the best style of the Art, or a large Cartoon Engraved on Wood.

No. 1.—*Contains a Cartoon of the Grand Drive in the Central Park, a Spirited and Animated Scene.*

No. 2.—*Contains an Eight-Page Supplement of Underground Life and Mining, with 10 Illustrations.*

No. 3.—*A Steel Engraving of Noon on the Seashore, from a Picture by Kensett.*

No. 4.—*An Art Supplement, containing New York Illustrated with 18 Superb Illustrations.*

No. 5.—*A Superb Cartoon of the Levee at New Orleans.*

Novelty, freshness, and continual change will be aimed at in this department. The Illustration will usually be valuable as works of art; those on steel, and the Cartoons, consisting of views of American scenery, by our most distinguished painters, and illustrations of character and life, by our foremost draughtmen. *They will be printed with extra care on separate sheets, and may be either bound in the volume at the close of the year, or framed to hang upon the wall. The JOURNAL, in this feature, will be unlike any other.*

ROCKBRIDGE ALUM SPRINGS, VA.,

OPEN MAY 15th.

This favorite and celebrated summer resort is now in complete order for the reception of guests.—Some important improvements have been added to the buildings since the establishment passed into the hands of the present proprietor, and it is his purpose to keep it in a style not surpassed any where in Virginia.

The remarkable medicinal and curative power of the water is well known to the medical profession and to the springs going public. As an

ALTERATIVE, A DIFFUSIVE STIMULANT, AND TONIC.

There is no known mineral water equal to it. In all anoemic conditions of the system, and broken down states of the constitution, loss of appetite, and general nervous prostration, its powers and virtue as a restorative may be safely pronounced to be without a known rival among the mineral waters. They are ESPECIALLY INDICATED in the whole class as ailments peculiar to the female constitution.

The Proprietor will have provided for the Lawn and Ball Room a first-class BAND OF MUSIC, and in general, all the sources of amusement and recreation, usually found at our best summe resorts, will be at the command of the guests at Rockbridge Alum.

The place is within 11 to 12 hours of Richmond, Washington, Baltimore and Lynchburg, by rail, ALL IN DAYLIGHT. Passengers leave the cars of the Chesapeake and Ohio Railroad at Goshen Depot, and new and elegant stage coaches, passing rapidly over a smooth and level road at only eight miles, set down the visitors at the Springs to tea.

The Rockbridge Water, put up in GLASS, containing ALL its medicinal qualities can be had at the well-known Drug houses of

JOHN H McADEN, *CHARLOTTE, N. C.*

WILLIAMS & HAYWOOD, *RALEIGH, N. C.*

who will furnish on application, pamphlets containing the analysis of the water, and letters from eminent physicians, with a few certificates out of many of the wonderful cures made by these waters.

The Piedmont Life Insurance Company, of Virginia, has

on its Life Policies, which have paid two annual premiums, and the same is available on such policies at next renewal to absorb loans, or reduce cash payments.

The dividend could have safely been larger, but with the

The company is now only in the *eighteenth* month of its active operation—yet

S. B. SEXTON'S CELEBRATED

PATENT BALTIMORE PARLOR HEATERS AND GAS BURNERS,

for Anthracite or Bituminous coal, have been in successful operation for the last ten years, and have proved to be the best Fire-place Heaters manufactured and put in operation. They are getting to be generally used, often in the place of furnaces, for heating the lower and upper rooms in dwellings and offices. Two or three Stoves heating the largest dwellings, and besides, are quite ORNAMENTAL and ILLUMINATING, having all the beauty and cheerfulness of an open grate fire, but are more ECONOMCAL, CLEANER, and RADIATING A LARGER AMOUNT OF HEAT. We can refer to thousands of families who have them in use.

We manufacture our own COOKING STOVES, and we guarantee them to be equal to any sold for *baking* and *cooking*. We have Stoves to take in *long wood* and with *large ovens*, and are *superior Stoves* for *baking*. We are getting out some new patterns of Cooking Stoves, that will burn *Bituminous coal, hard coal, or wood*. They will have a beautiful finish, and will stand among the No. 1 Cook Stoves. Our Cooking Stoves are Baltimore made, and we guarantee the plates. Our Cooking Ranges are pronounced the best and cheapest in the market—Baking of all kinds can be done in our Ranges as quickly and equally as well as in a Brick oven. We will manufacture S. B. SEXTON'S new patent Hot-Air Furnaces, warranted to burn from 30 to 70 hours with once filling.

Thankful to our friends and the public for their past favors, we solicit a continuance of their patronage.

NOTICE.—

We hereby notify the public that, from and after this date, we employ no agents for the sale of

Gregory's Dyspeptic Mixture.

Neither are there any interested parties with us. We are the inventors, sole proprietors, and only manufacturers of the GENUINE ARTICLE, and our individual signatures accompany each bottle—and all orders and remittances must be made to Drs. W. W. & R. K. GREGORY, at Charlotte, N. C.

In assuming the entire charge of this invaluable remedy, we present it to you in a new dress, and have reduced the price to $1 50 per bottle, to bring it within the reach of all. In the pamphlet which accompanies each bottle will be seen the certificates of the most distinguished physicians, judges and divines, in the State, and we only ask for it a trial, that dyspeptics may be convinced of its curative virtues.

A liberal discount to the trade.

CAUTION!

We desire to warn the dealers in, and consumers of snuff generally, that since the war, certain tobacco manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks, so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."

In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found upon comparison that Lorillard's Snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of the many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast), or Fresh Snuff (Extra Scotch) is desired.
